

Health and Safety Policy

McKee Homes is committed to a Health and Safety Program that protects our staff, our property, other workers who enter onto our property and the public.

Employees at every level are responsible and accountable for the company's health and safety performance. Active participation by everyone, everyday, in every job is necessary for the safety excellence this company expects.

Management will set an example and provide leadership in the health and safety program. Management will set a health and safety policy, work procedures and provide proper equipment and training. Employees are responsible for following all procedures, working with an awareness of health and safety and cooperating in working towards improved health and safety conditions at work.

Employees at every level shall be familiar with the requirements of the Alberta Occupational Health and Safety legislation as it relates to their work process.

Contractors providing services on our property are required to do so within the requirements of the Alberta Occupational Health and Safety Legislation.

Our goal is a healthy, injury free work place for all employees. By working together in all parts of the program, we can achieve this goal.

Let's put health and safety to work for all of us.
