

## **Environmental Policy**

McKee Homes is committed to contributing to the sustainability of our environment which includes but is not limited to the following:

- Minimize the hazards to the environment, public health and the health of all workers and visitors to our sites in conjunction with our Health and Safety Management System.
- Comply with all legislation as it relates to the environment and the new home construction industry.
- Work with industry, staff, and contractors to maintain environmental awareness.
- Maintain an office recycling program for paper, cardboard, glass and containers which can be recycled.
- Reduce the use of paper in daily activities.
- Use recycled paper where possible.
- Maintain energy efficient lighting at our office and showhome locations.
- Maintain our vehicles according to manufacturer's recommendation to ensure efficient operation and to conserve fuel where possible.
